

Team on the Run Brings New Enterprise Solution to U.S. Cellular Customers

Lyndhurst, NJ, February 1, 2017 (Newswire.com) - Team on the Run has collaborated with U.S. Cellular to help enrich the carrier's solution portfolio available to their growing enterprise customer base and to continue capitalizing on their expanding network of 4GLTE capabilities. The addition of this new technology to their solution offering will allow U.S. Cellular customers to manage their businesses from mobile phones, tablets and desktop devices.

Team on the Run is a business process communications tool that enhances the operations for businesses across industry verticals -- operational task-flow and communication is simplified, the efficiency of today's mobile workforce is maximized. Team on the Run was chosen for its ease of deployment, multi-industry applications and for its secure and robust features; such as VOIP, Push-To-talk, Business Forms and GPS / Dispatch.

Pascal Beglin, CEO for Team on the Run, said:

"To be selected by USCC is a privilege – we are honored to work with a carrier that understands the value proposition they must offer their customer – to go beyond simply offering voice and data. We know our solution can make a huge difference in the competitiveness and data security of our End Users."

Scott Scheuber, Director of Product Management for U.S. Cellular, said:

"We look forward to our business and government customers using our new Team on the Run solution and experiencing how it can simplify and enhance their operations."

About Team on the Run:

Team on the Run is a NJ-based subsidiary of StreamWIDE, a telecommunications company delivering SIP based software and services to over 70 Telco operators and 200 + million end users world-wide for over 15 years. Team on the Run is creating a lot of buzz in the mobile space for SMB, Enterprise, Non-Profit, and Government organizations. The concept of Team on the Run, is to ensure affordable secure messaging, team connectivity, and simplify mobile business workflow highlighting push-to-talk, asset location services and critical alert systems.

INNOVATION

Communiqué de presse

About U.S. Cellular:

U.S. Cellular is the fifth-largest full-service wireless carrier in the United States, providing national network coverage and industry-leading innovations designed to elevate the customer experience. The Chicago-based carrier offers coverage where the other carriers don't and a wide range of communication services that enhance consumers' lives, increase the competitiveness of local businesses and improve the efficiency of government operations. U.S. Cellular has the Highest Wireless Network Quality Performance in the North Central Region, according to the J.D. Power 2016 U.S. Wireless Network Quality Performance Study, and 99 percent of customers have access to 4G LTE speeds.
