

STREAMWIDE strengthens regional operations in APAC by centralizing activities in Singapore

Paris, March 18, STREAMWIDE is taking a strategic step to centralize its APAC operations in Singapore to strengthen its regional presence. As part of this transition, operations will gradually shift from its subsidiary in China to the Singapore office.

The decision aligns with STREAMWIDE's broader vision of expanding in the Asia-Pacific region, following the successful launch of a sovereign cloud at Singapore AWS. Bringing operations in one hub, STREAMWIDE aims to provide our partners and customers in the region with a more seamless, secure and efficient service experience with local support resources.

"As we grow and evolve with the market and technology, it's important to streamline our operations to stay agile and responsive. Singapore's connectivity, strong business environment and thriving tech ecosystem make it the perfect base for supporting our partners and customers across the region," said Pascal Beglin, STREAMWIDE's CEO.

STREAMWIDE remains committed to delivering innovative and reliable solutions while expanding its presence and support capabilities across Asia-Pacific region.

About STREAMWIDE (Euronext Growth: ALSTW)

A major player in the critical communications market for over 20 years, STREAMWIDE provides cutting-edge communications and digitization software solutions, **Team on mission** (mission critical) and **Team on the run** (business critical), tailored to address the challenges and needs of administrations and businesses.

These solutions for smartphones and PCs, offered in a SaaS model or on Premise, benefit from numerous functionalities such as the New Generation Push-to-Talk/ MCPTT over 4G LTE/5G Networks, multimedia group discussions, VoIP, collaboration tools, advanced telephony system, business process digitization and automation, field operations management, among others. These innovative solutions address the escalating demands for digital transformation and real-time coordination of interventions, empowering field teams to seamlessly convert individual efforts into collective success and operate as a unified force (ACT AS ONE) even in the most challenging professional environments.

STREAMWIDE is also present on the Value-Added Services software market for telecom operators (visual voice messaging, billing and charging of calls in real time, interactive voice servers, applications and announcements) with more than 130 million end users all over the world.

Based in France and present in Europe, USA, Asia and Africa, STREAMWIDE is listed on Euronext Growth (Paris) - FR0010528059.
